## COMPLIANCE

### **Certificate of Compliance:**

We have all insurances on request and are also located further below on this document.

### **License details:**

No licence applicable as there is no formal training available.

### **Qualifications:**

We have six technicians in the field all with on the job training, additionally with a Certificate III in construction.

Shane; the business owner is a qualified carpenter.

## OUR STAFF

Additional to our technicians; we have four support staff in our office managing jobs, emails and our phone lines and two quoters in our evaluating team.

## OUR STRUCTURE

We do provide free quotes for new installations but do not do quotes for easy and or small repairs. In these cases, we work with a cost limit usually between \$200 and \$500. We will quote for work that is over this amount and a call out fee will not be charged if this is the case. This helps us keep our costs down by not quoting for easy things such as minor services, batteries in remotes and repairs that we accidently fix during the quote while diagnosing the issue.

## Important information

Principals relying on this certificate should:

- ensure a statement under section 175B of the *Workers Compensation Act 1987 (NSW)* is attached
- ensure proper workers compensation insurance is in place
- compare the number of workers on site to the average number of workers estimated
- ensure that the wages are reasonable to cover the labour component of the work being performed
- confirm that the description of the industry/industries noted is appropriate

If the principal contractor has failed to obtain a statement or has accepted a statement where there was reason to believe it was false, they may become liable for any outstanding premium of the sub-contractor.

Did you know that an **excess, equivalent to the first week of compensable payments**, may be payable if notification of a claim is not provided to your insurer within five calendar days of when you became aware of the injury.

Yours faithfully
